

A CENTURY  
WELL BUILT  
APEGA.CA

Good afternoon,

Like many of you, APEGA is following the updates regarding COVID-19 provided by the government and Alberta Health Services. Effective immediately, we are Cancelling or postponing APEGA events scheduled to take place in March and April, including the Graduating Student Ethics Workshop.

All students registered for the Saturday, March 28, 2020 event will receive the opportunity to apply for MIT membership with APEGA at the reduced fee of \$40.00. Normally students attending the APEGA Ethics Workshop would receive a coupon code after the completion of the Ethics Workshop. Because of the risk mitigation measures being put in place, students this spring will not be required to attend the event and student coupon codes will be provided to students by our Registration Department. Please watch your email for an individualized coupon code with information detailing how to begin your APEGA application.

If you have not yet registered for the workshop, please [register now](#). If you have already registered, you need not do anything further. Registration for the APEGA Student Ethics Workshop will remain open until March 25, 2020.

We are closely monitoring the situation as it evolves and will continue to provide updates on APEGA's COVID-19 response through email, our social media channels, and our website.

You can find information on COVID-19 and recommended actions on the Alberta Health Services [website](#).

If you have any questions, please contact [events@apega.ca](mailto:events@apega.ca).
